

Locks Anything with a Hole™

LOCK-ALL

The NEW Lasso LOCK-ALL is a unique and versatile locking device that allows you to secure quickly and easily all the things you couldn't lock before.

The LOCK-ALL utilizes a vinyl-coated galvanized steel cable with hardened die-cast zinc attachment multipliers that won't rust and are corrosion resistant for years of continuous trouble free use. The new customizable Barrel Lock allows you to set whatever four-digit combination you choose.

The LOCK-ALL requires a very small opening (less than $\frac{3}{4}$ " in order to lock your gear to any stationary object like a tree, u-bolt, truck cleat, sign post, door handle, park bench, BBQ or any other available anchor point. Then, rest assured, your valuable items will be there when you return.
